01.2017: Mva-345 by Microsoft Virtual Academy

12.2016: Linux Essentials by Cisco Networking Academy

ABOUT ME

I started creating websites in technical college. I did my first big project in 2017. It was a simple website – forum. Built with HTML, CSS, PHP and MySQL. I also used google Maps API. Now, I'm after my first commercial project for personal trainer. I want to become a fullstack web developer, to fully understand how web works and develop great applications.
